

# ALZHEIMER'S CARE UNIT

We are committed to helping people with Alzheimers and other memory-related disorders live as independently as possible, for as long as possible. Our Arbor Hall Alzheimer's Care wing features a delayed egress alarm system with electromagnetic locks on all exits. Our well-planned dedicated Alzheimer's unit is designed to meet the needs of those residents living with memory loss. Familiar routines are re-established and emphasis is placed on what an individual can do and enjoys doing.

The staff at Arbor Hall have been carefully chosen for their empathy and compassion. Each staff member is then specially trained to help create a supportive, friendly and therapeutic environment for our residents.

Our ongoing inservice and Alzheimers training prepares our caregivers to assist with all the activities of daily living to our residents while maximizing their independence.
